

Mx350i -S & SP Automated Print & Apply Labelling Made Easy

info@codico-distributors.com
www.codico-distributors.com

The Mx-Series provides you with an automated print and apply system designed to accurately and consistently print and apply labels with variable data, thus minimising the risks of human error. This capability is particularly vital across all industries where precise labelling is crucial for product tracking, compliance, and quality control.

With the Mx350i-S and Mx350i-SP, we offer tailored installations to suit your manufacturing site, ensuring that your labelling process is streamlined, whether you require labels on the front, rear, top, side, or corner of a product or package.

Easy to Integrate

The advanced connectivity options of the Mx350i facilitate seamless integration with ERP, WMS, and MES systems within your factory. Meanwhile, the Mx350i-S and Mx350i-SP are compact and versatile printing and labelling systems that can be effortlessly integrated into any production line. They are available in both left- and right-hand variants, providing flexibility for various setups.

Easy to Use

The integrated user interface (UI) and optional remote 10-inch touchscreen are both crafted to offer simplicity and ease of navigation. Additionally, the robust design and intelligent functionality of the Mx350i-S and Mx350i-SP reduce the time required for media changes and maintenance, thereby enhancing production uptime.

Easy to Adapt

With three distinct running modes, you can seamlessly transition from labelling one side of a product to labelling two sides or engaging in a corner wrap application. The Mx350i-S and Mx350i-SP are designed for durability, offering the flexibility to adapt to your changing labelling requirements without necessitating costly investments.

A Complete Solution for all Labelling Needs

Operational Support

Our extended warranty packages offer top-notch on-site assistance and augmented reality-enabled remote guidance from our engineers. SafeGuard ensures that we can provide support precisely when you need it most, ensuring peace of mind.

Automatic Code Inspection

Guarantee the accuracy of every code leaving your factory and streamline operator time. With Domino's R-Series vision control systems, you can automate code inspection to validate code presence, placement, and readability, ensuring precision and efficiency.

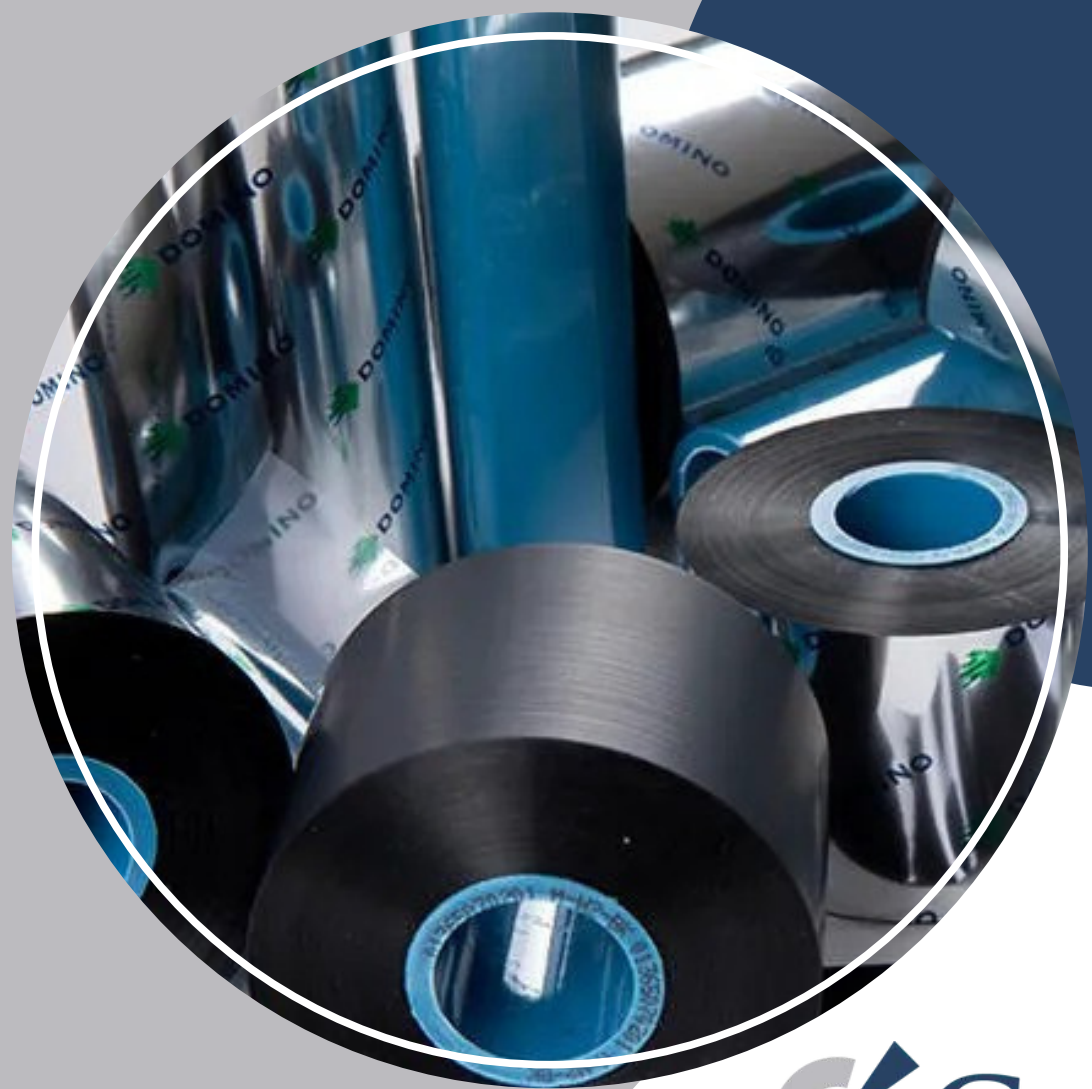

Control Software

Manage your product codes centrally and streamline product changeovers with Domino Automation. This system utilises standard communication protocols and seamlessly integrates into existing ERP systems, offering efficient control and enhanced operational efficiency.

High-Quality Consumables

Domino offers a wide selection of high-quality consumables catering to both general-purpose and specialised needs. For optimal performance and to safeguard your printer, it is recommended to exclusively use genuine Domino consumables to attain excellent results.
